“ I am saddened to have just read that my "School Daze" friend Renee has gone Home. I have not seen her for many years, probably 20 or 30 but the last time we crossed paths we joked about how we had two of the biggest 'Fros at PCH!

“ I want to send my condolences to the family; I am truly sorry for your loss.

Renee was a great person, caring in her own way, for me she was a big sister, and mother figure that I did not have in my life, lifted me up, and disciplined me when needed.

As Director over Patient Access Department, at North Oakland Medical Center she looked out for her staff and stood up for us. She did not let anyone Bully her staff!! We we were her work family we the staff had arguments, just like family does, and there were good times and rough times, our department endured a lot of changes and personal loss while under Renee leadership. Renee encouraged her staff to go to college and to get educated.

Her favorite saying to us “Did you “RTDS” was something she said often, we would have that puzzled look on our faces, what?” RTDS. When we were doing wrong, we could hear her coming down the hall, and we would run to our desk and pretend to be working, just like kids!!! Those was good times!! When I completed my master’s degree in 2016, she reached out to me on fb, and her words meant so much to me, especially because I am no longer in Michigan.
