“ I didn't know Mr. Bell, but I was present at his death in the hospital emergency as I was with my daughter, who was also ill. I watched the firemen bring Mr. Bell in, and the doctors who worked very hard for two hours in their attempt to save him. I wanted you to know that the medical staff did everything they could. I felt honored to be present when he passed and I prayed, along with the nurse who was present, for Mr. Bell. I am very sorry for your loss, and I could see how it affected you when you were led in the emergency to view Mr. Bell. Please know that you will all be with me in prayer tomorrow when you say goodbye to Rickey. Again, I'm very sorry about your loss.
